SRM AUTOMECH INDUSTRIES

Engineering the Future

Precision Ring, Sealing & Machined-Component Solutions Since 2003

ISO 9001:2015 CERTIFIED

COMPANY PROFILE

Who We Are

1

Established Engineering Business

Proven experience in engineering and manufacturing with a strong understanding of demanding industrial applications.

2

Founded in 2003

Established in Pune with extensive experience in engineering, manufacturing, and automotive applications.

3

Our Team

A young and dynamic team of operators, quality staff, and technical specialists focused on consistent output.

4

Our Expertise

Ring Rolling, Auto Components, Brass Components, Multi-part Assemblies, Forging, and Casting.

Our Identity

Sealing with integrity in high-pressure, high-temperature environments since 2003.

Mission

Offer first-class sealing products to the world.

Vision

Plans that perfectly suit customer needs, delivering products that meet and exceed pre-set standards.

Quality Statement

Customer satisfaction through timely delivery at competitive prices, with continual quality improvement.

OUR DIFFERENTIATORS

Why Us

22+	3M	ISO 9001	Export
Years in Business	Max. Ring OD Machined	2015 Certified	Ready Packing & Dispatch

- ✓ Assured quality and defect-free products
- ✓ High-grade raw materials used throughout
- ✓ Minimum rejection and rework, maximum output
- ✓ Cost-effective pricing without compromising quality
- ✓ Wide range of products under one roof
- ✓ Expert and dedicated workforce

MANUFACTURING CAPABILITY

Infrastructure & Machinery

- CNC Lathe Turning Machines
- VMC Machines
- Conventional Lathe Machines
- Conventional Drill & Tap Machines
- Land and shed admeasuring 1,200 sq. ft.

CNC Lathe

VMC Machine

Conventional Lathe

Drill & Tap

ASSURANCE

Quality & Testing Facilities

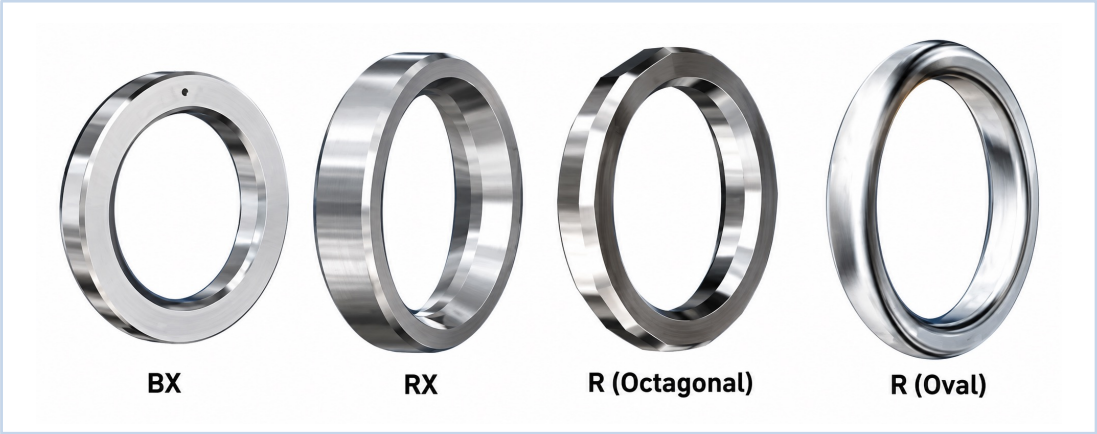

- Micron Digital Micrometers & Verniers
- Profile Projector
- Hardness Tester
- Ovality Tester
- Slip Gauge Box
- Digital Verniers
- Dial Verniers
- Dial Gauges
- Micrometers
- Special Gauges

ISO 9001:2015 Certified

Every batch is checked against documented quality procedures before dispatch. Certificates and material test reports available on request.

PRODUCT RANGE

Ring Joint Gaskets

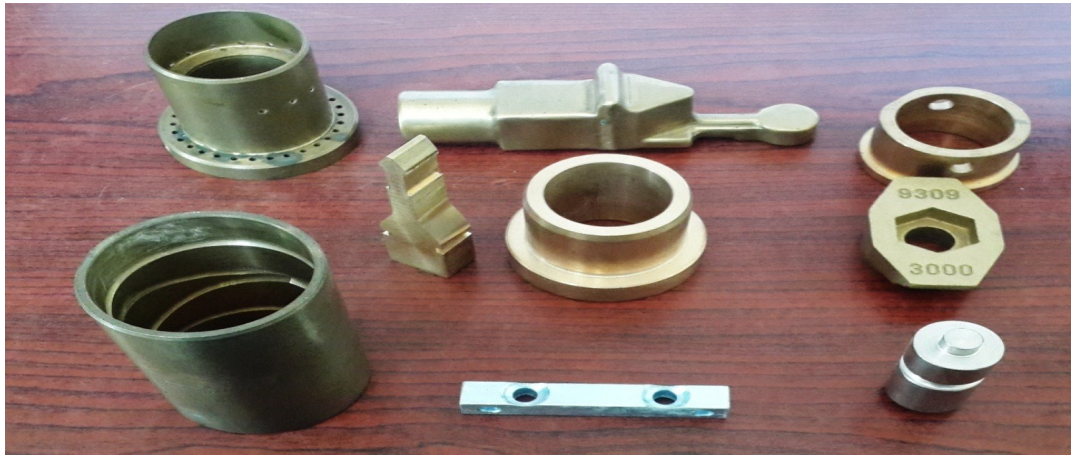

Available profiles: R, RX, Octagonal & Oval

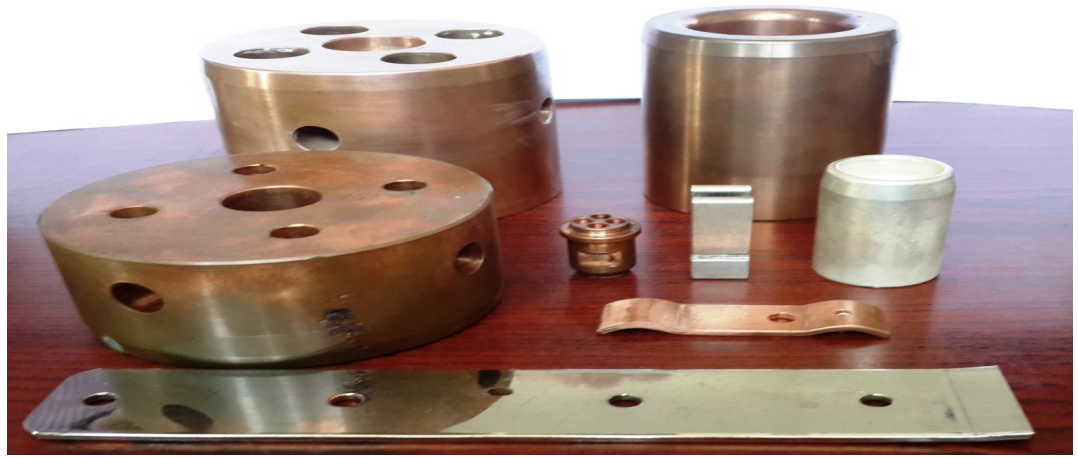

- Precision-machined ring joint gaskets for high-pressure, high-temperature flange connections
- Multiple profiles: R (Oval/Octagonal), RX, and custom shapes
- Manufactured to customer drawings and standard flange specifications — please confirm applicable standard (e.g. ASME B16.20 / API 6A) for your order
- Suitable for oil & gas, petrochemical, and other critical sealing applications

PRODUCT RANGE

Precision Machined Components

Brass & Copper Components

Copper Components

Castings

Machined Components

SCALE & REACH

Large-Diameter Rings & Export Packing

Large-OD Ring Machining

Ring Wrapped & Export-Ready

Export Packing

Dispatch to JNPT Port

Capable of machining rings up to 3 metres outer diameter, with export-ready packing and documented dispatch — including shipments via JNPT port.

MARKETS

Industries We Serve

1

Automotive & Wheels

Precision components for automotive and wheel manufacturers

2

Oil & Gas / Petrochemical

Ring joint gaskets for high-pressure flange sealing

3

Electronics & Defense

Machined components to tight tolerances

4

Export / Global Trade

Packed and dispatched for international customers

Based on our current client base — adjust to reflect your target sectors.

HOW WE WORK

From Enquiry to Dispatch

1 **Enquiry & Drawing Review**

Share your RFQ or drawing; we review specs and feasibility

2 **Quotation**

Competitive costing based on material, quantity & lead time

3 **Sample / FAI Approval**

First article sample for your sign-off before full production

4 **Production & In-process QC**

Manufacturing with checks at every stage

5 **Final Inspection & Packing**

100% inspection and export-standard packing

6 **Dispatch**

On-time delivery, including export shipments
